A school district's State Funding is a complex calculation with many inputs. One of the primary drivers within the calculation is student attendance. While the District's attendance rate is comparable to that of its peer districts average and of the State average, it should be noted that the District's attendance rate has decreased slightly from the previous two years. The 2017-2018 attendance rate was 95.4 percent, while the 2016-2017 attendance rate was 95.7 percent.
